

Water Efficient Appliance Rebate Form

Upgrading to the latest water-efficient plumbing fixtures is a great way to save water. Inefficient and old household appliances can waste water, energy, and money. When you use water-savings products, you can expect superior performance and savings on your water bill and in your wallet.

Did you know?

- By replacing an old, inefficient toilet with an EPA WaterSense labeled model, the average family can reduce water used for toilets by 20-60 percent- equating to roughly 13,000 gallons of water savings every year.
- Regular washing machines consume approximately 12,000 gallons of water annually. High efficiency washers (HEW) significantly reduce this water use by more than 6,000 gallons per year.

- **Please note:** Participants in this public program must provide proof of their lawful presence in the United States according to provisions of Colorado Law (Immigration Law, HB 06S-1023).
- The toilet rebate is valid for the replacement of 3.5 gallons per flush or greater toilets. Entire toilet must be replaced.
- Toilets must have the EPA WaterSense label.
- Rebate is limited to **2 toilets*** and **1 washing machine** per household.
- Pre-owned and leased appliances do not qualify for the rebate.
- New fixture(s) may be selected for inspection by a City of Brighton representative.
- Receipt(s) must be for new fixtures. No used appliances are accepted.
- The rebate will be credited to the customer's water bill.
- Customer is responsible for disposal of old toilets.
***2018 will be the last year for the 2nd HE toilet rebate. Starting in 2019, the rebate max will be 1 toilet per household.**

First step:

- Thoroughly read the rebate rules to see if you qualify. If the rules are not attached to this form, please call 303-655-2084 or go to www.brightonco.gov to obtain them.

Next toilet rebate steps:

- Toilet must have the **EPA WaterSense label**, a toilet of 1.28 gallons per flush. Search [product list](#) for qualifying toilets. The Manufacturer and Model Number of the new toilet must be on this list to qualify for a rebate.
- Replace water-wasting toilet with new toilet. **Keep the store receipt to submit with application.**
- Break the old toilet and take a picture of the old, broken toilet. Submit picture of broken toilet with rebate form.

Next washing machine rebate steps:

- Before you purchase, print out the latest [Consortium for Energy Efficiency](#) list (link also shown on page 4 in General Rules) and bring it with you when shopping for a new washing machine. The Manufacturer and Model Number of the new washing machine must be on this list to qualify for a rebate. **Store receipt must be submitted with application.**
- Take a picture of the new, installed washing machine and attach it to the rebate form.

Final steps:

- Fill out the form on the next page and attach copy of receipt(s)/photograph(s).
- Sign the affidavit of US residency and bring legal proof of US residency with the rebate form in person to:

I, the undersigned, have read and understand the conditions of eligibility for this rebate as stated in the General Rules. This rebate is conditioned upon my compliance with its terms and with the terms required by the City of Brighton. I understand an inspection may be scheduled with a City inspector to verify installation of a low-flow toilet and/or high efficiency washing machine. I also understand that the City of Brighton makes no representations or warranties regarding any make or model of approved appliances, including any warranties of merchantability or fitness for a particular purpose or water efficiency. The City of Brighton is not liable or responsible for any act or omission of any contractor whatsoever, nor is the City of Brighton responsible for the condition of the plumbing and electrical wiring on the homeowner's side of the meter now or in the future. This rebate is subject to availability of funds and may be changed or discontinued without notice. I also understand that I am responsible for installation of the new appliance and disposal of the old appliance.
